

Special Portrait Offers For Babies...

“Do You Want An Affordable Professional Portrait Of Your Baby?”

I expect that you've found it very hard to take great photographs of your baby. As they grow up so fast you really do need to take as many images as you can in order to capture those very early days of their new lives.

We love taking baby portraits and our photographers take hundred's every week!

The Offer...

We will take a variety of different poses in a half hour session in our Broadstone studio. *NB These sessions are for babies only!*

You can select 10 of your favourite images to be included on your high res CD. You can then get prints made at your preferred lab or online.

Cost for above session only £99. Extra files £5 each.

Sessions are by appointment only and have to be pre paid. Sessions take place on Tuesdays and Thursdays only.
