

Benefits to your school

Database I.D Photographs

Our Imagelink Cd Rom **Automatically** updates the I.D records on your school's database with the photographs we take on 'Picture Day'.

This CD is compatible with most school databases.

We are a CAPITA ES preferred photographic company and are licenced to supply photographs for sims.net.

Please check direct with CAPITA for confirmation of our status.

Headteacher's Mugshot Album

This album is a great way to view children in each class at a glance. The pictures are made up from the photographs taken during the day and can include each child's name.
(provided we use our image link software)

Complimentary staff pictures

If your staff need updated photographs then just have them ask. These can be used for your staff board.
